

Eco –schools Meeting

Date: Tuesday 17th May 2018

Attendees: Rebecca, Milo, Anna, Kyle, Daisy-Louise, Daniel, Kaiden, Daisy, Lewis, Ben, Macie-leigh and Miss Waugh.

- The Eco-team collected the entries from the Eco-code competition and selected different elements from each. We then as a group have created our school Eco-code. This will be shared with each individual class and displayed around school.
- All members of the Eco-team are checking daily that paper is recycled in the paper bins.
- The school litter pickers will continue to reduce litter around school. Some members have noticed litter in the sensory garden so we will focus on this area.
- The team would like all classes to visit the local allotment in the summer term for gardening and Eco.
- The children would like to develop the garden areas next term so we will start a gardening club again at lunch times once a week.
- We will apply for the Green Flag Award.
